#### Nothing Serious.

In a speech in Cincinnati Gov Davey makes it clear to his friends that he is not worrled about the May primary. That there will be opposition the governor does not den) but he does dray that it will be serious of position

This should be interesting to Rep Slephen M Young who intends to make things lively for Gov Davey in the primary It should be no less interesting to whatever gentlemen persuaded Rep. Young to stake a cureer in congress on the chance of he coming the Democratic nomines for governor of Ohlu

They apparently believe Rep Young is going to be a contender Rep Young himself must believe he is going to be a contender A arent many Ohio Democrats, suspecting there are wheels within wheels In the matter of Rep Young's decision to run also think he will he a contender

To make the thing complete Gay Duvey too must think Rep Young is going to be a contender. Otherwise he wouldn't be whistling to keep up his courage

### To The Rescue. Department records showing the financial

history of Ohlo's liquor monopoly for two years lell an interesting story of hig business in the hands of the tax collector

Since its establishment in the apring of 1934 the liquor messopply has turned a net profit of close to \$7,000,000. It has furned over more than \$5,000,000 to old age pensions and reculred one and three quart ers of a million for operating capital

The states gullonage tax on liquor his producer elore to \$6,000,000 divided between the general revenue fund and oldage panalons with only a half million going to the latter Beaides the not profit from the monopoly and the gullounge lax the slate collects permit fees. And on top of all that the manufacturers the relations and most of the consumers seem to be getting along miter a jeanion

In brief whatever the liquor monopoly may not be it was a sticke of goulus for the tax gatherers

Sap's Running.
Gourmets who worehip at the paneaks griddle and the waffle iron may overlook carclessly their debt to the follow who discovered that by boring a hole through the bark of a maple tree and inserting a tube it is possible to obtain sap. Pancakes and waffire would be something less than they are if it were not for the fact that bolled sap becomes maple strup

The manufacture of maple symp is an Indigenous industry which lacks proper appreciation. There are no doubt thousands of children who never have seen and may never are a sugar camp with muple sap boiling in the vals. They never will equip themselves with a saucer and a spoon to sugar off. They never even will have an opportunity to sample the woody sweetness of sap Poor little people'

Perhaps It is just as well though that they remain in tolal ignorance of the tites which go on in the maple groves when the eaps cumning. Unions they could sit up all night to watch the transformation of sweet water into delicious wrup they wouldn't be properly initiated anyway. They still would be outsiders confused with a smattering of information but not infused with the spirit of a noble industry which operates for a few weeks each vent in the maple groves of Ohlo and a few other sections of the country's

#### Hoping For The Best.

Soviet Russia pininty is Chancellor Hiller's favorite bete notice a role it fills admirably also for a good many American politicians. The chancellor sees the hear that walks like a man reaching out a red paw to grasp capitalist Germany by the throat. His fear quite ill elv is motivated by the interests of the industrialists who are the sponsors of the Nationalist Social ist party

Russia's position is an enigma Lauipped with a huge aimy the Soviet Union's politi cal theory is nevertheless opposed to war-Russian spokesmen constantly relierate their governments peaceful in tentions yet they are as strongly national intic as any of Europes or Asias intense nationalists. It is generally agreed that Russia is doomed to engage in whatever conflict breaks out abroad

It is interesting to remember in connection with the possibility of war that red Russia bases its confidence in worldwide communism on the revolutionary aftermath of another great war Russian leaders believe that the eventual disintegration of capitalism is inevitable due to the inability of capitalist governments to avoid conflict and that the usimate result of conflict will be the triumph of the proletariat. Their viewpoin is shared by many who are reither Pumlars nor communists

One question e(ii) re-nains to be answered It has not been explained yet where the muney to light another was could be ob-Apparently e erathing is in readi ness but the financial aponsorable without wolch armies cannot be gi en marching ordere. Fire Russia hoping for he best from another was does not know where the sictime could obtain the credit to har en their destruct on

#### It's Not That Simple.

In his request to congress for \$1,900 69,000 to finance indered relief during the real fiscal year President Popsevelt inclined the fellowing statement

The who believe that government may te compelled to assume greater resp neitiff ties in the operation of our industrial aga tem can make no salld objective to a re newed effort on the part of private enter price to insura a livelihood to all willing vorkers. Those on the other hand who believe in complete freedom o ; halo con trol without an, posernment particliation should enroestly underlake o lemenstrale their effectiveness by in making employ

Throughout measage there is a tore of challenge to private in lue 13 to relieve gos ernment of its relief burien by taking up the slack in emplo me t li \* in langerous elmplified ion of a contiler; of lon Private Industry cannot do tom or resolution what the President says it so it is to demon strate its effecti eness. Mr Roosevelta apparent beilef that there are men who believe in complete tree i m of grivate con that without government | articipation is almost refreshing. Where would be find

How does he convince himself that it is possible for private injustry to do by de croe what it cannot do ! necounting? Why does be choose to lat ru the repeated charge by private industry against govern ment that repeated attacks sponsored by the Roosevelt administration have proved destructive to the very confidence which is essential to expansion and to increased employment?

It would be advantageous to the Pical dent to be able to blame private industry for continuance of unemployment. For tunately there a no possibility of making the problem seem that simple. Industry will hire more men when circumstances justify hiring more pien. If Mr Roosevelt would pay more attention to creating those circumstances and less attention to reviling business men the program of recovery would be more rapid

#### Resemblance.

Because Americans have been interested Soviet Russias Stakanoff movement tto increase production by utilizing work era efforts more efficiently) they are in terceled in the report that the move ment is being hindered by substage the Boviel Union is deeply disturbed

Sabotage in this case is a technical word for resistance Apparently Russian workers are as reluctant to be driven for the advancement of the state as Ameri can workmen are for the advancement of capitalism in other words the trouble lies not with the system but with human

The Soviet Union Insists understandingly enough that the Stakhanoff movement land the old fawldoned speedup. However that may be it's running into the same

Crowder of May street

TWENTY YFARS AGO

It was Thursday March 23 1916

Wholesale desertions were reported declinating the forces of Chrismas in Meyles of the deserters going over to Pancho Villas ranks to fight the hated Gringges the form applied to American troops sent into Meyles to explure Villa. The silication was described as the most serious facing the United States government since its troops enforced Meyles.

Russian troops advanced two to four milles along the Dyinsk front driving the Germans from positions they had been for 1974ing ever since the big German drive ended in the summer. There was fighting ever the greater part of a 700-mile front with some attacks witnessed by the Czar. The Epworth Men's chorus entertained families ar's friends of the members with a dinner in the church basement. The committee in charge consisted of H.E. Meredith B. I. Wallace Raiph Huri. P. Callahan T. S. Catheis and Frank Thomas. The Clarillon Township Farm Improvement association was organized as a branch of the county association with F.C. Smith as president.

#### Senate Tactics Raise Serious Question

Threat to Constitutional Rights Seen in Seizing Telegrams in Violation of Court Order.

### By DAVID LAWRENCE Coppeleds 1934 by The Marion Star

By DAVID LAWRENCE (operated size by The Markon Mar Wildlington March 22—Irrespective of personalities the issue raised by a few members of the United states senate as to whether the freedom of the press shall be maintained in America transcends in Importance any other expect of public policy today for If the encrotchinest is not repudiated the the rights of the clitzen to other consitutional goarsnices will be similarly impoliced in 1s simplest form the question has been calsed. Three publishers of nows papers in widely separated parts of the country have had their private measured by what is plainly an unlawful method judding by supreme rourt treat dents. The privacy which has for as long a time attached to telegrams has been brushed aside by a senate committee.

The federal communications act and

The federal communications act and other laws make it a federal effected by the contents of messages except on lawful inthority. Limploy so the federal communications commiss in acting on orders from members of the communication surrendered private messages. Athout dues to the repeat of the repe out questioning the legality of the request of a senate committee

But even though some 12 960 telegrams But even though some 12 9/40 releganms were copied by senate committee representatives with the cooperation of the federal communications commission the question arises whichier the senate or invitee had a right to turn over any massive so obtained to any person outside the senate committee it appears that a copy of one of these private missages was tansmitted as a manual of the beauty of retresents. to a member of the house of representa-tives. Blisha Hanson general econed for the various newspiper publishers insists in a motion filed in the district supremocurt that the sente committee violated the law and so did the felect communities tions commission employes in terning over filvite messages to outside persons

It is not a question of wint he in stages to obtaine i because in one institute the telektum was a communication between a full bate and his Washington correspond of As subsequently disclored the member of the house who was mertioned in the telegram took offense in the charges and made a spech about the true making the telegram tubile. But this not been then public would in that o been the telegram jubile. Het this not been done the public would not have been aware that his particular affect had been made on the member. So the issue now turns on what right the service committee had in transmitting to an intelliguerson a copy of a telegram it had obtained in its own inquiry.

there is more ver the j int that a judge in the district supreme court had a week ago ruled that the subpoene under which the senate committee has of the telegrams was unit ful. In the face of this pinion from the bench the senate committee went ahead with the transposition of the conv. of the message transmission of the copy of the message to a member of the house

This means the beginning of consider abit. Illigation of invoctance to all the people who believe in the constitutional guarante of the freedom of the press guainte of the friction of the press. Senate Black of Alabama chairman of the senate labby committee told the senate on I tiday that If injunctions were soing to be transfed against senate committees it would mean they could be enjoined against golding evidence. But the supreme court his said again and again that no such indimited right to seek evidence has been granted. The judicial power tha right to enforce federal statutes and canduct in stigations into violations. and conduct in stigations into violations of existing to a 19 not vested in either house of cour e's but in the courts where action is to be ken following the presents from if evide — secured in the usual way through the ffices of the United States district after

district after 12 tended in the senate that the subjects 2 to the lobby committee is virtually the me as has been used for many years. But this does not make it lawful to be the thing to the thought of the thing the thing to the thing the thing the message of the message of the thing the thing the message of the thing the th

The lift ifficulty with the senate lobby committees a poents is that they have not perficultify to enshain many or how the join of ligislation on which informate a sought is performed to an inquiry or how the join of ligislation on which informate a get comes within the constitutional part of the senate. Thus there is no joint to be senate or in the house or in hoth together to pass any laws shellging an untilling the freedom of the piess. Information, in the communication between juilitee and correspondent and the maling place of juility in attempt at abridge. pape nen i plurly in attempt at abridge ment ( the fre dem of the press. The tro pet in the new look magni-tude will come out of the selzure of the telegran Rocks It is not in sympathy with what the senate lot! commutee has done but, on the cites hard he has not manifested any interest so far as is publicly known in the aleced violations of federal law by members or employes of the federal communications commission

munications commission.

It would so a probable that the controvers of the inition of privacy of telegraphic messures would engage the interest of citlers ground operately when in the face of a field election use is made by ment of the ende of telegrams which has be nobtained by means of the cittle injuries at lateway declared by a court in a liter instance to be faults.

B) IALL MAIION
WASHINGTON Match 23-The
flying squadron of new 1 alin is
doing a good inside jot of soling new corporation ta "cloim to Concress

to Congress
Squadman are laying hands on congressional shoulders in the corners and whispering a more cumplete explanation of the purposes behind the proposal the any which have been made jubil. The tax change they see was written preferring to get at 200 corporations the big 90 He had society of the corporate world. The 100 would be forced to pay a larget percentage of the rearnings for laxis than they do now All other corporations (they contend) would pay less Also the proposal would tay to be force the 200 of their existing size the 200 at their existing size. The others would be permitted to

grow.

This soles talk is having an effect Not more than a few dozen congressmen come from districts where the 100 mir The others are being persuaded that it would be politically wise to sook high corporate acciety.

Good non-ration to lechnic

Good non justiments to technical study at the argument. They say that Treasury Counsel Oil phant and whoever the was he hind the program did not give extensive consideration to what it

tensive consideration to what it would lo

For one thing the Fig fellows alleady have their reserves. These would not be affected by the new program President Isoseveit at cifically stated that he varied distribution only of future cornings.

The little follows generally have no such reserves. Theirs were dissipated fighting the depression if they ever had any. They are entering now upon a period of business apparation. If till their coming, carnings are to be distributed they will nover have any

thing for a inluy day

Thus they will droop at the flist
rainfall even though that task
holders meanwhile pay somewhat

Confession

Lyen more to the angle of the considered promise being made by nembers of the tax squad that they would repeal their plan at the first sign of a rainy day. They will not admit it in print but they recognize that the bad point is that their program induces corporations to save nothing for times of stress Some congressions to whom this promise has been advanced notice that it seemed to be a confession of the economic confession of the economic weakness of the program

Behind the News

| Crest wonder whether a repealer would do any good after the rain language and language and language arrived the only time your carnings are coming in | O O McIntyre's Diary of Fact. Fancy and Folks Resutt

#### What will happen is this The

what will happen is this The few tax wise congressmen in charge will rewrite the program soften it with exemptions make it work able The result will be based on an entirely different theory than the attack against bigness upon which the original tax suggestion was based although it will been a was based although it will bear a facial resemblance to the original

freist resemblance to the original program

For some days now these wise ones have been working toward retention of the existing corporate tax structure with something like an earnings lax on lop of it Something like that will come out of congress in the end

Hoover
A reison very close to Mr
Hoover says the Palo Alto political promoter is not exactly pleased with the way Gov Landon is conwith the way Lov Landon is con-ducting his campaign. The friend says Mr. Hoover clearly implied as much out on the const recently. It is unquestionably true. The Hoover view is that now is the time for all good men to come to the aid of their party. He thinks Col. Valos is making a good fight.

Col knox is making a good fight hy touring the country and delly of folling the country and delivering speeches thus keeping the political contest alive. He thought I andon should have done likewise and is understood to have counseled the kansas governor to that effect directly or indirectly some

weeks ago
Incidentativ as all Mr Hoover's
friends know he believes that all
frominent Republican
speakers
ill berome second string mer as
soon as the candidate is selected
This includes himself

Sty

The treasury has been slyly build ling up each bulances lately beyond want act us to let resee able requirements. The trick apparently is to charge the bonus as well as to charge the bonus as well as every other odd and end to this fiscal year bluming the bonus for the big jump in the debt which is now under way. Apparently, Mr Morgenthau Is figuring on reductions and additional in figuring on release. tion and a downhill coast in finance ing the second term

Il is being reliably said in the to se closic room that Nr Hoose velt was well pleased with the lax bill reaction considers the idea a master stroke (Copyrigi) 1976 by Paul Malton)

proclamation of a sinte of energency kept all visitors out of Harl ford until the Conrecticit river

iroops aided Red Cross and WPA workers in earing for 8000 redugers Other forces set to work to regin repairing damagn estimated at 4 5 non-non-

to Hartford police as missing— there has been only one known deal—but officials were conflicut most of them would be dealed at cellef agencies or at homes of filends.

Lowell Lawrence Springfield and Northampton Mass Daumge at Ifaverill Mass was placed at \$3

greater degree in Pennsylvania where Plitaburgh Johnstown and the other stricken communities

the other stricken communities builed 1.5 dead.

Physicians called health conditions good in most mudicaked towar and Pittsburgh a feer of a water shortage was ended. Utility service in the steel conter was operating an possible. raling on nearly a normal basis Relief agencies still were inxed

weatern reconstraint was providing food clotting and shelter for 110 100 persons. Two thousand families at Wheeling W. Va. had not returned to their horses.

Trouble at Mississippi. Tributaries of the Mississipp

near its source in Minnesots over flowed with masses of broken ice and sent tan dozen families scurry

and sent tan dozen families scurry ling to higher ground.

Part of North Mankalo wan under three feet of water Efforts of MPA workers were insufficient to keep a dike in the Minnesota river intact and it burst.

The Missouri river also was rist. In with the Missouri river also was rist.

A meeting of the Bethlehem Zion Epworth league of south of Marion will be held Tuesday night at 8

### A CLEAR COMPLEXION

Ruddy cheeks—sparkling eyes—most women can have Dr F M. Edwards for 20 years treated acores of women who suffered from constipation During these years he gave his patients a substitute for calomel made of a few well known vegetable ingredients naming them Dr Edwards Olive Tablets. know them by their olive color

The tablets are worder workers on the bowels, causing a normal action carrying off the wests and poisonous matter in ones system. If you have a pare face sailow look duil eyes, pimples coated tongue headsches, a listless no good feeling all out of sorts, insettive howels, take one or two of Dr Edwards Olive Tablets at night for a week and nor the pleaser.

You can quickly counteract the
